Jak mogę pomóc

In RK Legal, I provide services to clients from the banking sector in the field of claims management. I specialize in enforcement and bankruptcy proceedings. I support companies in actions, from the moment of submitting a motion to initiate proceedings, to their final and binding conclusion. I collaborate with trustees in bankruptcy and restructuring advisers.

Experience

I have been dealing with enforcement proceedings since 2009. I have gained my knowledge and skills working, *inter alia*, in the office of the court enforcement officer and in the court. I have experience in collaboration with creditors, drafting submissions at the litigation and enforcement stage, handling the electronic writ-of-payment proceedings and cooperation with court enforcement officers.
