

Magdalena Komosa

Data Protection Specialist RK RODO

Jak mogę pomóc

I focus on assisting the firm's clients in regulating data privacy matters within their organisations.

I have experience in working with private entities in the media, service and manufacturing industries. I participate in personal data protection implementations and audits and support clients with ongoing issues related to the legal aspects of data security. Develops and updates documentation in accordance with the requirements of GDPR.

GDPR implementations

I implement GDPR procedures for small, medium and large enterprises.

Data Protection Officer function

I serve as a Data Protection Officer for entities of varying structures in the manufacturing, service and retail industries.

Legal GDPR audit

I verify the compliance of standards within client organisations for compliance with applicable regulations. I analyse documentation, processes, procedures, permits from all spheres in which the client operates.

I handle day-to-day service of entities

I support private entities with advice, opinions and analysis in the context of personal data processing.
