

adv. Marta Krysińska

Senior associate, Business Advisory& Litigation Department

Jak mogę pomóc

I support ongoing business activities of companies from automotive, service and construction industries. I verify and provide opinions on commercial contracts.

I assist in registration of companies and making entries in the Central Register of Beneficial Owners (CRBR).

Experience

Legal services for commercial companies

I provide legal assistance to corporate bodies and prepare draft internal documents. I have experience in corporate disputes, concerning e.g.: repealing resolutions, winding up of limited liability companies, compensation from management board members and establishing court-appointed administrator of a legal person.

Entries in the National Court Register

I prepare documentation necessary to register entities in or introduce changes to the National Court Register. I ensure that the proceedings before registry courts are conducted properly.

New legal provisions

I support clients in adapting their business to new legal requirements. Due to imposing new obligations on the parties to legal transactions I assisted clients, *inter alia*, in identification of beneficial owners and their entry to the Central Register of Beneficial Owners (CRBR), or in the process of share dematerialization.

Litigation

I take part in court proceedings regarding business cases, specifically in the construction and automotive sector. I also participated in the court proceedings at the stage of cassation appeal before the Supreme Court.

Education

- Advocate Traineeship – Warsaw Bar Association (underway)
- Faculty of Law and Administration, University of Warsaw (2019) summa cum laude
